

DEUREX® S 3219 M

TECHNICAL INFORMATION

Chemical description:	Micronized Silica, embedded in polymers (Fully coated)		
Benefits:	<ul style="list-style-type: none"> - Polymer surface is completely coated with Silica - Product floats in aqueous systems - Silica gives the coating very good matting properties - There are no additional matting agents necessary - Guaranteed maximum particle size and constant and narrow particle size distribution 		
Applications:	<u>Paints and coatings</u> <ul style="list-style-type: none"> - Industrial coatings - Wood coatings - Printing inks 		
Properties:	<ul style="list-style-type: none"> - Very high matting efficiency - Outstanding resistance against household chemicals - Excellent abrasion and scratch resistance - Excellent transparency - Uniform surface distribution
