

MASTERWAX® GLOSS

A brand of DEUREX®

Waxes as processing agents and lubricants; PTFE for increased surface hardness, rub and scratch resistance as well as improved slip; Benzoin as degassing agent; Silica for free flow – the purchasing list of additives is very long. From now on DEUREX concentrates all mentioned additives and their benefits in one innovative product series:

MASTERWAX®

- Less costs and efforts in purchase
- Less costs and efforts in logistics
- Less costs and efforts in stock
- Less costs and efforts in production process
- + Higher batch quality
- + More cost benefits
- + Higher manufacturing quality
- + Increased production safety

Of course, we can also offer all components as individual products to you. The current portfolio can be found at www.deurex.com. Our product series myMASTERWAX allows us to produce your tailor-made all-in-one solution in your preferred lots and your preferred packaging.

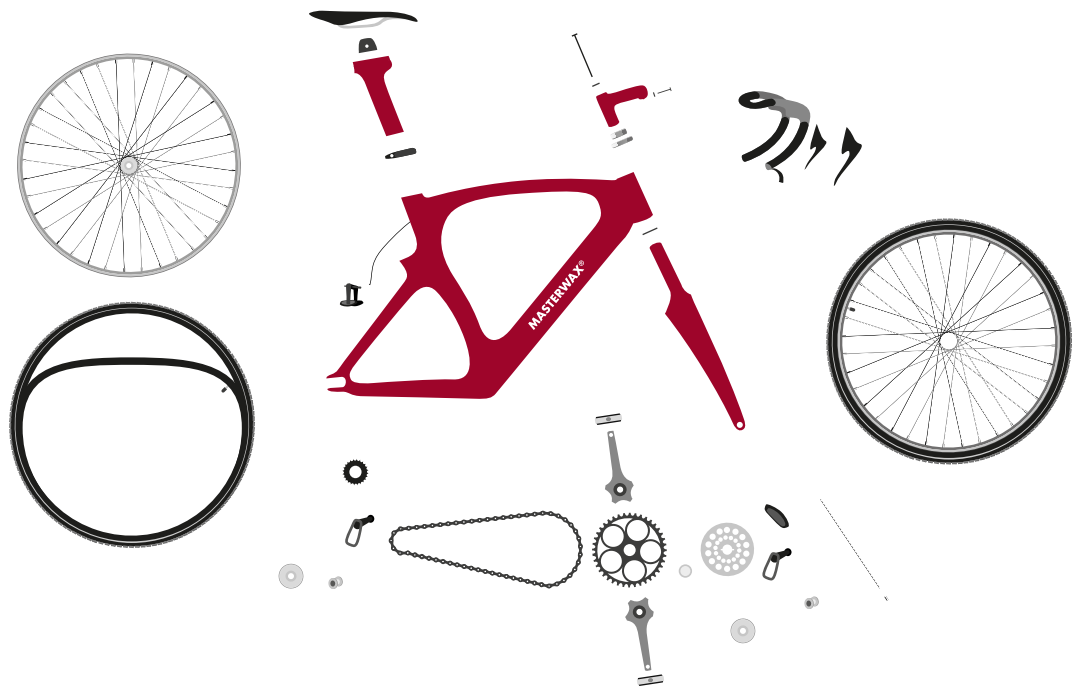

MASTERWAX® GLOSS

The all-in-one wax-additive-concentrate for supreme gloss effects.
